

# Discoveries at Willow Creek

As you listen to *Discoveries at Willow Creek*, use the Venn diagram below to compare and contrast the food, water, shelter (cover) and space available during the fall and spring.

**Food, water and shelter in Fall**

**Food, water and shelter in Spring**

**Food, water and shelter in both seasons**

# Ohio in 1803, 1903, and 2003

Compare and contrast the features and characteristics of Ohio in 1803, 1903, and 2003.

	1803	Predicted 1903	Actual 1903	Predicted 2003	Actual 2003
<b>Amount and Types of Wildlife</b>					
<b>Amount and Types of food, water, and shelter available</b>					
<b>Physical Characteristics</b> (lakes, rivers, hills, forests)					
<b>Human Characteristics</b> (towns, farms, canals, roads, paths)					

The photographs below came from the Spring 2003 edition of Wild Ohio Photos from Division of Wildlife and Tim Daniel. The pictures can be printed and students can sort the images into “then” and “now” categories. All color pictures were converted to black and white.
